ADVANCED HEATING TECHNOLOGY

Colorado MCR/TCR PROGRAMMABLE TOWEL RADIATOR

Ducasa's attractive ladder-style electric towel radiators feature thermostatic controls for efficiency and lower energy bills, and are ideal in the bathroom for providing warmth and keeping towels dry and fresh.

Manufactured in steel, with a white or chrome finish, the Colorado is simple to fit and maintenance-free. With a selection of wattages and two hour boost facility, the heat output is sufficient to warm the bathroom at times when a full heating system is not in use, such as in summer.

Used in conjunction with the Ducasa digital programmer, the Colorado will maintain comfort levels in the bathroom to suit your needs.

The Colorado MCR is available in white and the TCR in chrome.

- Durable steel construction
- Easy to operate
- 2 hour boost facility
- Fully programmable with Ducasa remote controller
- 7 day / 24hr timer
- Comfort, economy & frost protection settings
- Tamper proof option
- Available in white (MCR) or chrome (TCR)
- 300w, 500w and 750w sizes available in white
- 450w available in chrome
- Filled with thermo-dynamic heating fluid
- Electronic thermostat with frost protection
- Overheat safety cut out
